

Debauché

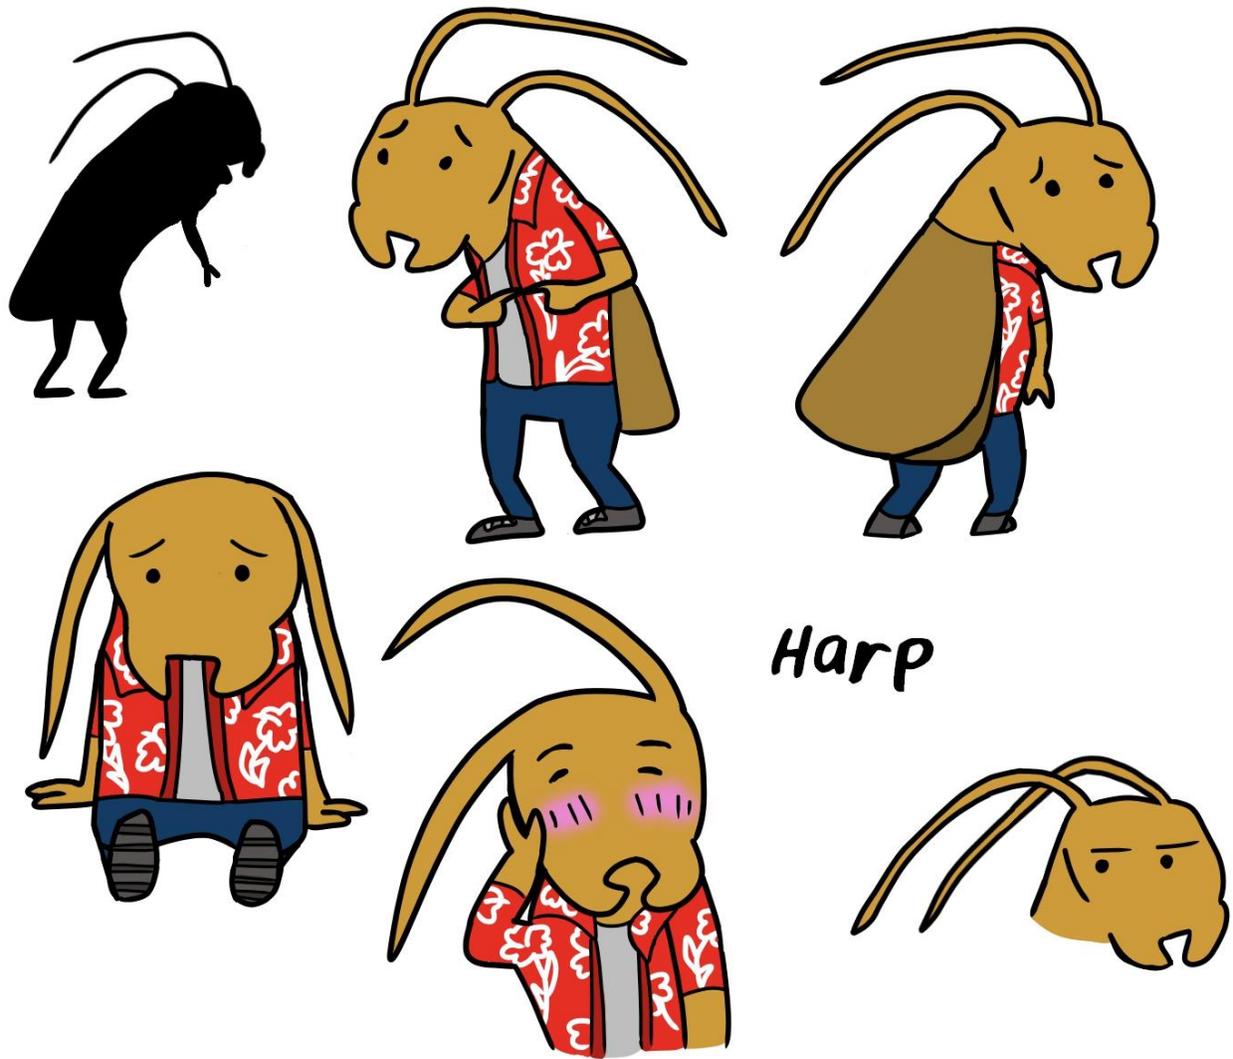

LIVING

Created by Christina Cavanaugh

A show about the cockroaches living in the aftermath of doomsday and their many bizarre adventures in the now torn apart world.

From mutants to radioactive slime the gang has a lot to look out for but make the most of what they have.

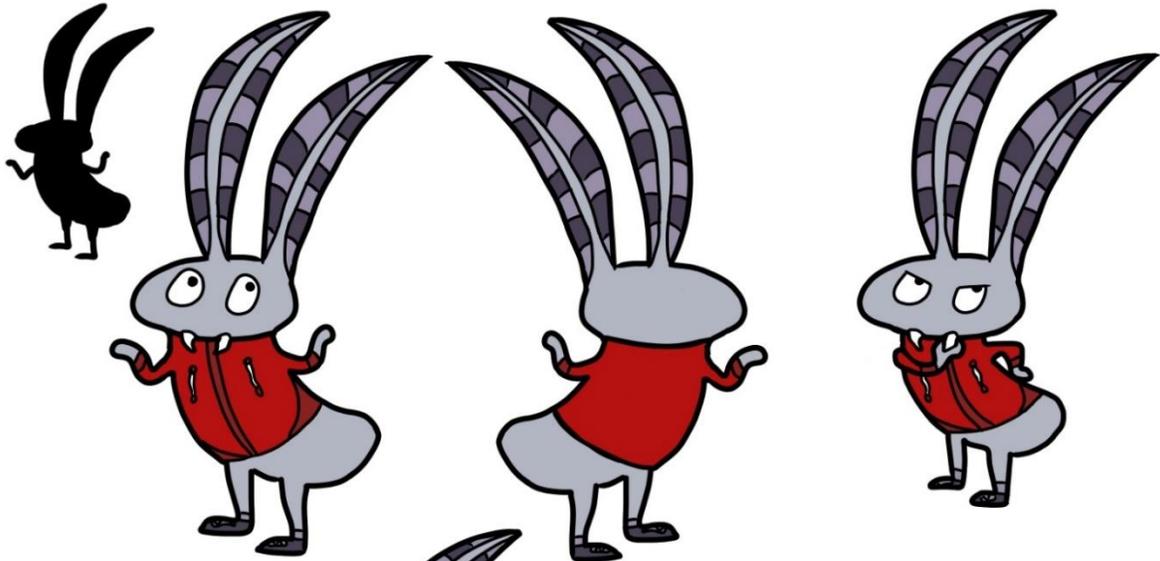

Harp

Our main character of the group is harp, most of the time he's down in the dumps and super nervous but has a big heart and loving to do what's right. Harp is also the only character in the show that can fly for a short distance (although he doesn't prefer to).

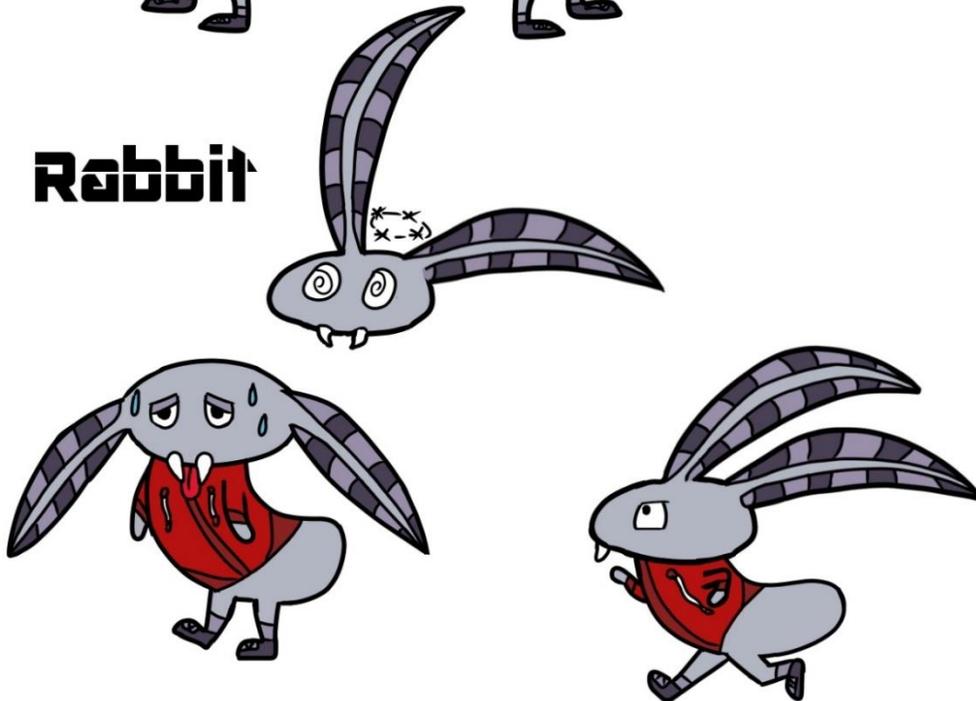

STEVIE

Stevie is the leader figure of the group and someone that the gang look up to and admire. He enjoys discovering new places to hangout and extreme sports. Although he can be standoffish at times its mostly for thinking of new plans and what to do for that day.

Rabbit

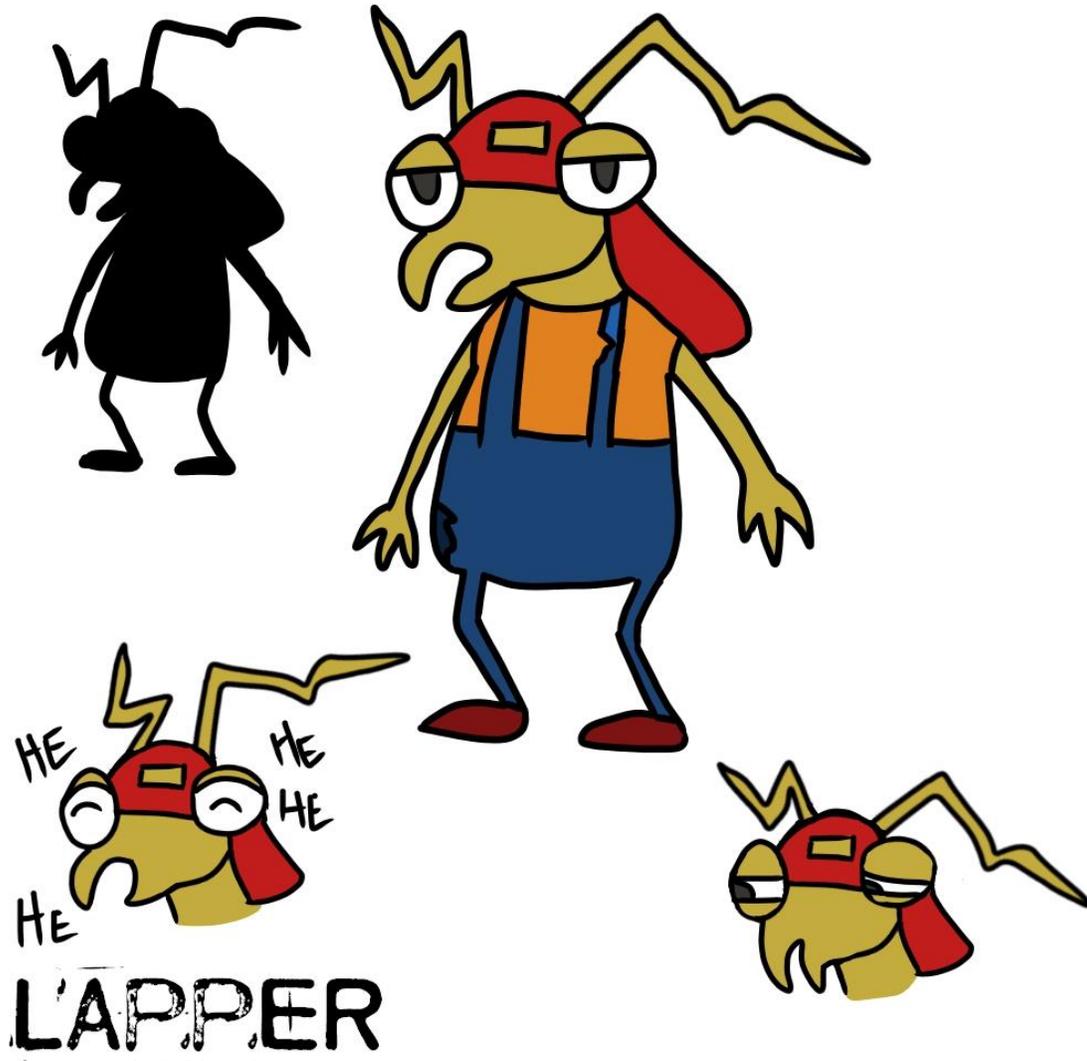

Rabbit

Is the speeder of the group and speaks in clicking like noises which results in the gang not being able to understand him at time's. Rabbit hates being belittled by his small size and often reminds the group why he is a valued member of the team.

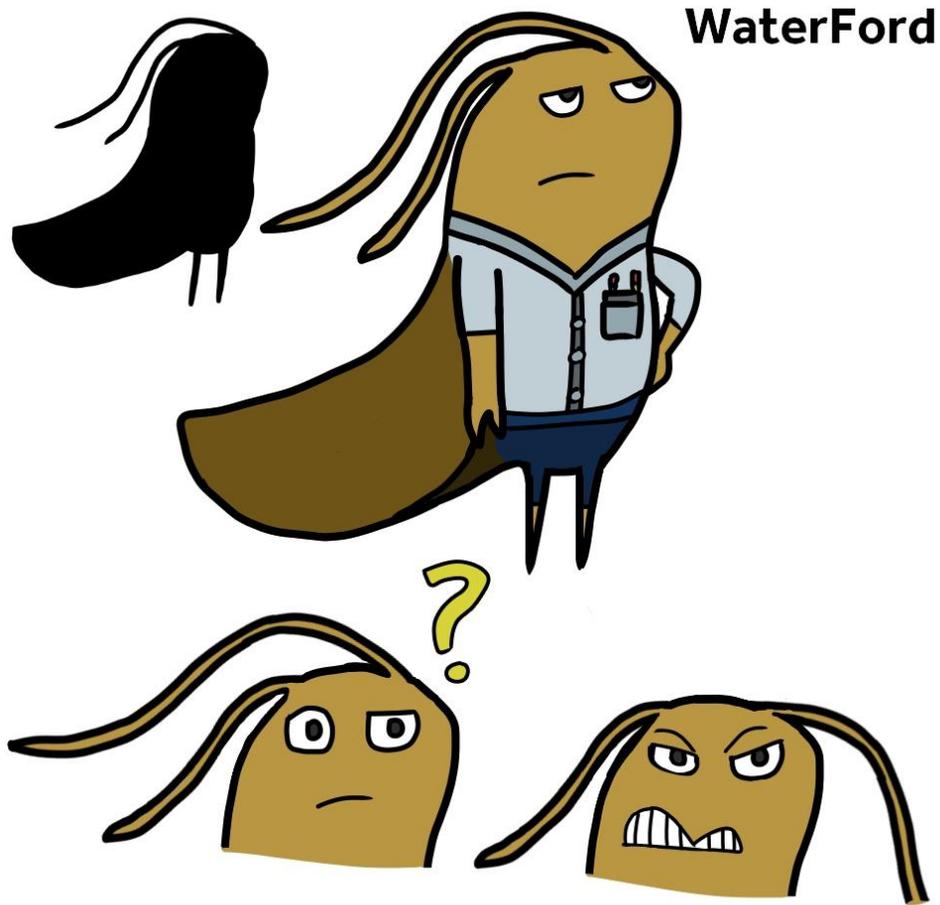

Perky

Is the positive go getter of the group that no matter what looks on the Brightside of life and try's to encourage the others to do so as well. Often perky gets tricked or pranked on by the group because of this, but in the end he understands that it's all good fun.

Lapper

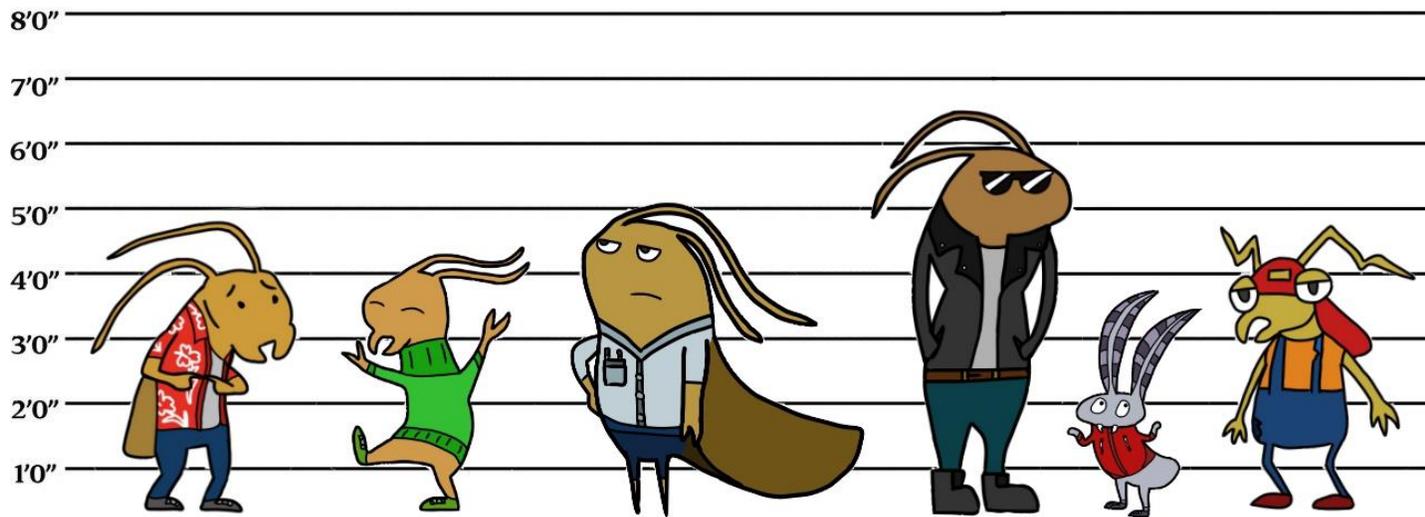

Lapper is the mechanic of the group, he often stays in town and works on varying things to help them out. Lapper's personality is kind of slow and he is an older member of the group, he loves a good joke every now and then. Lapper all and in is your typical redneck bug as well his slang somewhat strange and hard to understand at times.

Water Ford

Waterford is the brains of the group often using it to get the gang out of trouble time and time again. Waterford comes from a richer family of bugs and dislikes having to deal with the gang's stupidity most of the time. Most of the time he is in his lab working on new projects.

CHARACTER HEIGHT CHART

Other Characters

Although debacle living there will be other cool and interesting characters that they will meet, some good some that are bad.

From the Fly jazz band to the mutant frogs there are plenty of new faces to meet.

THE WORLD OF Debauchle

Locations in the land

Here are some examples and concept art of areas that the gang would visit and an idea of what the world around them looks like.

Areas include the desert, amusement park and one of the cockroaches' rooms.

Although the show you'll see clever buildings made by cockroaches and destroyed but interesting lands.
